

Smart Card Readers

For Contact Chip & Contactless (NFC) Cards

Bluetooth Smart Card Readers

Our Bluetooth smart card readers are the ultimate in flexibility and compatibility, offering secure, wireless connectivity with any Bluetooth-enabled system.

A micro-USB connection also allows the readers to be used with systems without Bluetooth.

Two types of bluetooth reader are available: one that supports cards with physical contact (ISO/IEC 7816-1,2,3,4), and one that supports contactless NFC cards (ISO/IEC 14443 Type A and Type B cards).

Supported Standards

- Compliant with PC/SC, CCID standards
- ISO-7816-1/2/3/4 T=0 and T=1 protocols
- ISO 7816 Class A and B cards
- ISO/IEC 14443 Type A and Type B cards
- EMV 2000 Level 1
- RoHS
- CE, FCC
- Microsoft WHQL 2000, XP, 2003, 2008, Vista, 7 certified
